# Synod Appropriations and Allocations Ordinance 2012 Parochial Cost Recoveries and Church Land Acquisitions Levy Ordinance 2012

# **Explanatory Report**

### Introduction

1. Under the Synod Estimates Ordinance 1998 the Standing Committee is required to prepare for the second ordinary session of the 49<sup>th</sup> Synod a statement of funding principles and priorities and a proposed ordinance reflecting that statement which contains Synod funding estimates for 2013. The Statement of Funding Principles and Priorities for 2013 (the "Statement") has been prepared and is printed for the Synod separately.

2. The Synod Appropriations and Allocations Ordinance 2012 and the Parochial Cost Recoveries and Church Land Acquisitions Levy Ordinance 2012 (the "Ordinances") have been prepared to give effect to the Statement.

3. The details of specific appropriations of individual Synod and parish trust funds and the amounts allocated to particular purposes and organisations under the Synod Appropriations and Allocations Ordinance 2012 are shown in the Schedule which forms Attachment 1 to this report.

4. The uses and sources of funds applicable to the Endowment of the See have been shown in a separate column in Attachment 1, even though these figures are not the responsibility of Synod. The reason for including this column in the attachment is to improve transparency and enable the Synod to see how the holistic Diocesan finances, which are the subject of the Statement, are then given effect through the administration of the two endowments, the parish trusts and the cost recoveries charge and levy paid by parishes.

5. The details of the cost recoveries charge in respect of ministry costs and parochial network costs and the levy to acquire land for future church sites under the Parochial Cost Recoveries and Church Land Acquisitions Levy Ordinance 2012 are shown in the Schedule which forms Attachment 2 to this report. The estimate of the amount of the variable parochial cost recoveries charge and the parish levy to be paid by each parochial unit are shown in the Schedule which forms Attachment 3 to this report.

6. This report provides explanatory comments on the specific proposed uses and sources of such funds. The report should be read in conjunction with the broader explanations provided in the Statement.

### Use of funds

### Long term requirements

7. The role undertaken by the Archbishop's Public Relations (Media Officer) is considered an essential element of the Diocesan ministry network. Therefore, while such a person is employed by the Anglican Media Council, an allocation from Synod Funds will be paid to the Council to be applied for this specific purpose.

8. As in previous years, one of the requirements of our ministry network is that we maintain an archive record of parish material. This is to be funded with an amount of \$50,000 to be raised through the variable parochial cost recoveries charge.

#### Immediate requirements

9. For 2013 our estimated membership and affiliation costs in the wider Anglican Church (ie, the assessment raised by the General Synod and the accommodation and travel costs of Sydney representatives attending the General Synod, and the costs of the Provincial Synod) are to be funded through an allocation of Synod funds. Funding for our membership of the NSW Council of Churches has been discontinued.

10. The direct external costs of each ordinary session of Synod, such as venue hire and printing costs, should be funded through an allocation of Synod funds rather than drawing on any reserves or working capital that may remain in the Synod Fund. The actual cost is heavily dependent on the venue (Wesley Theatre), format (afternoon and evening sessions) and duration (5 days) of the Synod.

11. Similarly, the cost of a 5 day booking for the Archbishop's election Synod, should be funded through an allocation of Synod funds rather than drawing on any reserves or working capital that may remain in the Synod Fund.

12. The cost of Standing Committee (and subcommittee) members' car parking in St Andrew's House is considered an appropriate use of Synod funds, although the amount allocated for this purpose has been reduced by 10%.

13. The allocation of Synod funds to cover the costs incurred by the Secretariat in providing services to the Synod, Standing Committee and parishes under its ordinance has been reduced by 10% from the 2012 level, although no corresponding reduction in the scope of services to be provided under the Secretariat's service level agreement with the Standing Committee has yet been agreed.

14. The parochial network costs (recovered through the variable portion of the parochial cost recoveries charge) consist of the estimated cost of or parish-related contribution to –

- (a) The annual parish property and liability insurance program increasing by more than 12%. In arriving at this amount the Property Trust has made allowance for
  - (i) a conservative average 9% increase in premiums,
  - (ii) the cost of financing the annual premium in advance of receiving the 10 instalments of parochial cost recovery charges,
  - (iii) an estimate for the amortised cost of obtaining new insurance valuations for all the properties, and
  - (iv) the cost of reimbursing Care and Assistance payments authorised by the Professional Standards Unit.
- (b) The parish risk management program reduced by 10%,
- (c) Parish related work by the Professional Standards Unit (PSU) unchanged,
- (d) The safe ministry training program unchanged (provided by Youthworks on behalf of the PSU),
- (e) A provision for relief and remission of cost recovery charges unchanged,
- (f) Diocesan archives unchanged,
- (g) Support for the Sydney Anglican Parish Accounting System (SAPAS) unchanged, and
- (h) The Secretariat's administration and accounting fee, approved by the Finance Committee, for the PCR Fund 951.

15. The ministry costs (recovered through the 'fixed' portion of the parochial cost recoveries charge) consist of the contributions required for superannuation, long service leave, stipend continuance insurance and sickness and accident fund on behalf of each of the ordained ministry staff licensed to the parochial unit.

16. Details of the amount of each of the parochial network costs and the ministry costs are shown in the Schedule in Attachment 2.

#### Long term mission commitments

17. Along with a number of other programs, the amount of Synod funds allocated to support the work of Ministry, Training and Development has been reduced by 10%. The Department advises this will mean the Director's position will become part time. Nevertheless the Department retains primary responsibility for recruiting, guiding and selecting for ministry in the Diocese, as well as providing continuing education for ministers.

18. The critical importance of acquiring land for future church sites in the expanding greenfield areas of the Diocese has been recognised as a major long term Mission initiative. Accordingly an amount of \$2,000,000 has been set aside in 2013 for this purpose, to be funded by way of a levy on all parochial units. While such an amount will probably not be sufficient to purchase even one new church site, it is a significant contribution to this initiative. If this level of annual funding can be maintained in the future it will go a long way to enabling a permanent ministry presence to be established in new housing areas. All these funds will be directed towards greenfield areas because there is currently no permanent ministry presence in these areas, whereas in brownfield areas there is at least some existing church plant available to support ministry to the growing population in those areas. At the same time as the parish levy is providing money to purchase new church sites, the Mission Property Committee is working on a multifaceted campaign to raise the funds for the building work needed. A number of Diocesan organisations including the Department of Evangelism and New Churches, Moore Theological College, Youthworks College and Ministry Training and Development are working to identify, equip and nurture the church planters to lead these new churches.

19. Moore Theological College will continue to receive the majority of the funds allocated under long term mission commitments. Notwithstanding the reduction in funds available this year from the Diocesan Endowment and parish trust ordinances, the amount allocated to the College has been maintained at the same level as in 2012, reflecting the strategic long term importance of the College to the Mission of the Diocese.

20. The funding of Youthworks College will also be maintained at the same level as in 2012, reflecting its important role in providing future leadership for our churches and for the Mission.

#### Current mission activities

21. The Synod funds allocated to support the work of the Anglican Education Commission in 2013 have been maintained at the same level as in 2012, although this is only half the amount provided in 2011. As noted last year, this level of funding recognises that the Anglican Education Commission already draws much of the income it needs directly from the Anglican Schools it supports, and the provision of central funds, other than for advocacy, was always intended to be by way of seed funding until the Commission was able to establish a track record and earn the financial support of the Anglican schools.

22. The allocation of Synod funding for the Anglican Media Council to provide internal communication and evangelism, including through their website and Southern Cross, has been reduced by 10%.

23. The Synod funding allocated for the research function provided by Anglicare has been maintained at the same level as in 2012 in recognition that the research provided, including that derived from the NCLS data, has proven integral to much of the mission planning and this allocation only covers part of the actual cost incurred by Anglicare.

24. The creation of a holistic Diocesan budget for 2013 has enabled a reassessment of the Synod funding required to support the Episcopal team. In 2012 \$300,000 of Synod funds was allocated to Regional Councils to assist with administrative support provided for the Assistant Bishops. For 2013 the extent of Synod support for the

Episcopal team has been reduced to \$176,000, with the balance, which currently covers the costs of the 4 assistant bishops, 2 archdeacons, 1 bishop's assistant, 1.35 executive assistants and 2 personal assistants, funded from the Endowment of the See.

25. The Synod funding allocated to the Department of Evangelism and New Churches has been maintained at the same level as in 2012 because its work is considered a high priority mission activity. The Department provides resources which support local evangelism and directly assist the planting of new Sydney Anglican congregations as well as having responsibility for developing a Diocesan wide approach to ethnic, cross cultural and multicultural gospel ministry in the regions and parishes.

26. For 2013 the amount of Synod funds allocated as an addition to the capital of the Sydney Anglican Indigenous Peoples Ministry Fund has been maintained at \$48,000. If the previous formula used for many years (ie, 1% of total income available to the Synod) had been maintained, the allocation in 2013 would have been \$44,000.

27. The allocation of Synod funds to provide ongoing support and assistance for Mission Areas has been reduced to \$80,000 in 2013 in recognition of the reserves available for this purpose as a result of the mid-year start in 2010.

28. The Synod funding to support the work of the Tertiary Education Ministry Oversight Committee ("TEMOC") has been increased slightly for 2013 as it is considered strategic to the Mission. The Standing Committee recognises the strategic importance of maintaining a clear Anglican presence amongst evangelical Christians ministering in the tertiary education sector. Research shows the time at university or other tertiary education institutions is a significant stage in many people's lives, both in terms of conversion and commitment, and for recruitment to ministry. Federal Government policy will see a very significant increase over the coming years in the proportion of the population completing year 12 that then go on to undertake tertiary education.

29. Synod funds allocated to support for gospel work outside the Diocese have been maintained at 4% of the total available funds. The Standing Committee recognises that Synod resolution 40/09 "encourages it to consider how in future the Diocese may return to 5% of income that would be made available for Gospel work beyond the Diocese", and has investigated a number of options to raise the amount allocated for such work. In 2012 a number of parishes have contributed a modest amount by way of voluntary contributions to the Work Outside the Diocese Fund in response to resolution 22/11. Furthermore significant amounts have been directed toward providing bursaries for people from the wider Anglican Communion to attend the 2012 FCA Leadership Conference. There are likely to be additional calls on the Work Outside the Diocese Fund to assist with similar bursaries in 2013. However, in 2013 the Work Outside the Diocese Committee should be able to maintain the overall level of grants comfortably in excess of the target of 5% of available Synod funds through the use of reserves representing unspent allocations from prior years.

30. The Synod funds allocated to Youthworks for resourcing children's and youth ministry and Special Religious Education (\$310,000), and recruiting for and running an expanded Year 13 Program (\$100,000) have both been maintained at the same level as in 2012 because these programs are considered to be of high priority.

31. In March 2010 Standing Committee agreed to assume responsibility for providing funding to support the ministry on Lord Howe Island from the beginning of 2013. Accordingly an allocation of \$20,000 of Synod funds has now been provided. Prior to this Lord Howe Island had been the responsibility of the South Sydney Regional Council.

32. An amount of \$108,000 has been allocated to Contingencies to give the Standing Committee some flexibility and capacity to respond to changed circumstances that may arise during 2013.

### Source of funds

33. The Glebe Administration Board has advised the Standing Committee that the amount which may prudently be distributed from the Diocesan Endowment for spending by the Synod in 2013 is \$3,335,000.

34. The amount of Synod's share of the distribution received under each of the 9 parish trust ordinances that provide for a portion of the income generated to be distributed to Synod is detailed in the Schedule in Attachment 1. In aggregate, Synod's share of the income derived from these ordinances will be \$1,039,000 in 2013.

35. A portion of the balance of the reserves held in the Synod's accumulated funds will be appropriated to meet direct Synod disbursements, such as venue hire and printing, both for the 3<sup>rd</sup> session of the 49<sup>th</sup> Synod in October 2013, and for the Archbishop's election Synod in August 2013.

36. The Standing Committee is recommending that the majority of the reserves in the Synod Fund, which are currently estimated at approximately \$1,000,000, be used to supplement the income available to Synod over the next few years, beginning with an allocation of \$200,000 in 2013.

37. The Standing Committee has also included in the sources of funds available for allocation by Synod in 2013 an amount of \$312,000 representing an estimate of the Synod's share of the net settlement of back rent owing on the office building at No.1 York Street, Sydney.

38. The aggregate of the amount required as a parish contribution to the cost of Diocesan archives and the parish property and liability insurance program and the other parochial network costs results in a total amount of \$4,457,000 to be recovered from parishes in the form of the variable parochial cost recovery charge for 2013.

39. A parish levy of \$2,000,000 will be raised to provide the funds needed by the Mission Property Fund to continue to acquire land for new church sites in the greenfield areas of the Diocese.

### Recommendation

40. It is recommended that the Synod receive this report and pass the Ordinances.

For and on behalf of the Standing Committee.

ROBERT WICKS Diocesan Secretary

26 July 2012

Notes

2 Parishes without property (shown marked with #) are charged a lower rate of variable PCR reflecting the absence of the component for the property insurance premium, except that Glenmore Park has volunteered to pay the variable charge percentage applicable to parishes with property.

<sup>1</sup> For parishes that had not lodged audited financial statements for 2011 by 5 July 2012 (shown in italics, shaded) an estimate of their 2011 Net Operating Receipts has been calculated by taking 2010 NOR + 5%. If the 2011 audited financial statements are still outstanding at the time the actual 2013 parochial cost recovery charges are due to be invoiced later this year, the Finance Committee has approved the use of a charge based on 2010 NOR + 20%.
